Scholarship for the Master of Advanced Studies (MAS) in
"Translational Medicine and Biomedical Entrepreneurship"

u^b

^b
**UNIVERSITÄT
BERN**

About the MAS Translational Medicine and Biomedical Entrepreneurship

- The study program is designed to train professionals in scientific and medical knowledge, and simultaneously in entrepreneurship skills to enable them to successfully coordinate the development and commercialization of biomedical products.
- It consists of six modules covering different aspects relevant for the development and commercialization of medicinal products and medical devices.
- It is open for all academic disciplines. For academics without a background in natural science, engineering or medicine, a special module *prerequisites* has been developed.
- It addresses professionals from industry, hospitals and academia that are active in the medical sector and interested in translational medicine and biomedical entrepreneurship.
- Lecturers are professionals from research and development oriented private companies, scientists from universities or universities of applied sciences, collaborators from regulatory agencies, financial experts and clinicians.
- All classes are in English.
- **Start & Duration: September 2021 for a duration of a minimum of 4 semesters**
- **Location: University of Bern, sitem-insel building, Freiburgstrasse 3**

About the Scholarship

- The scholarship is awarded based on the applicant's qualification and commitment to improve the process of translational medicine and/or develop new and innovative medical products or processes preferably developed at the Insel Group or in collaboration with the Insel Group.
- The scholarship enables the holder to perform the MAS studies and deepen his knowledge in Translational Medicine and Biomedical Entrepreneurship.
- Applicants should have a bachelor's or higher degree in life sciences, pharmacy, medicine, engineering science, natural sciences or equivalent.
- Applications should be submitted in electronic form to school@sitem.unibe.ch. The application documents should include CV, description of a project that the student plans to develop during the MAS and a letter of motivation. Applicants should also fill out the registration form on www.sitem.unibe.ch/registration

About sitem-insel School

The sitem-insel School's mission is to promote researchers and train specialists in the fields of translational medicine and biomedical entrepreneurship. This successful academia-industry partnership intends to facilitate the development of talented individuals in translational medicine.

About sitem-insel

sitem-insel – the Swiss Institute for Translational and Entrepreneurial Medicine in Berne – was created to establish, operate and develop a National Center of Excellence that assists in the transition from research findings or prototypes to marketable products. It is organized as a non-profit public-private partnership.

The strategy is based on four pillars: School, Enabling Facility, Promoting Services, and Network and Communication.

About Inselgruppe

The Inselgruppe AG represents the largest and leading medical care system in Switzerland. With its six locations in the canton of Berne, the Inselgruppe combines primary care with top university medicine and teaching with research.

At the Inselgruppe, we attach great importance to education and research. In an efficient and translational approach, we bring our results to the hospital bedside, create space for innovation and promote talent.

As the Inselgruppe, we are the main educator in the healthcare sector in the canton of Berne. By training doctors, nurses and many other professionals in the medical fields, we are significantly contributing to the future of healthcare - across cantonal and linguistic borders.
